Claim boundary

This record documents a local check of the official encoded requirement. It is not an official IFEval evaluator run or an independent verification.

Exact official task

Rewrite the following statement to make it sound more formal, like a President of the United States:
"Hi guys. The work was done to add in a fix for the issue that was observed in the field with the SSO.
We are working with our collaborators closely. We will get it done. Thanks ya all."
Do not include the following keywords: field, thanks, issue, collaborator.

Locked response

Good evening. We have completed the work required to implement a corrective measure for the problem identified in the production environment involving the SSO. Our partners and our team are working closely together to complete the remaining tasks. We remain committed to delivering a reliable resolution, and we will see this effort through to completion. I appreciate your continued support.

Manual task checks

Task response	Provides a formal rewrite that preserves the SSO work-update meaning.
Register	Uses formal civic and executive language without adding a new substantive claim.
Response boundary	The scored block contains only the requested answer.

Preflight

0 corrections. The response was checked before finalization and then locked.

Local keyword evidence

Encoded constraint	Result	Evidence
field absent	PASS	Zero case-insensitive whole-word matches in the locked response.
thanks absent	PASS	Zero case-insensitive whole-word matches in the locked response.
issue absent	PASS	Zero case-insensitive whole-word matches in the locked response.
collaborator absent	PASS	Zero case-insensitive whole-word matches in the locked response.

LOCAL REIMPLEMENTATION - NOT OFFICIAL EVALUATOR. The official IFEval module was not executed in this workspace. The local check mirrors the published ForbiddenWords case-insensitive whole-word behavior for the specified terms.

NOT INDEPENDENTLY VERIFIED. No external reviewer or third-party evaluator verified this record.
