

Luna One-Shot Benchmark Record

Google Research IFEval | item key 136

RECORD STATUS INTERNAL ONE-SHOT RECORD	EVALUATION STATUS LOCAL CHECK PASS	EVIDENCE STATUS NOT INDEPENDENTLY VERIFIED
---	---	---

Purpose and scope

This regenerated record preserves one completed one-shot benchmark submission and its original scoring boundaries. Regeneration changes the documentation architecture only; it does not constitute a new benchmark attempt, new evaluator run, or post-score improvement.

SCOPE BOUNDARY

This record does not establish official evaluator status, independent verification, universal model behavior, external certification, or general benchmark performance.

Run summary

FIELD	RECORDED VALUE
Benchmark	Google Research Instruction-Following Evaluation (IFEval)
Benchmark version	IFEval official repository master snapshot; exact commit not captured in original record
Task/item	Item key 136
Prompt series	Prompt 1 of Grounded DI benchmark series
Official instruction/scoring requirements	detectable_format:number_bullet_lists = 9; length_constraints:number_words = fewer than 100 words
Requested model/route	Luna Max
Observed runtime identity	Codex; exact model identifier is not exposed in this runtime
Original benchmark run timestamp	2026-08-23 19:39:59 EDT -0400
Record regeneration timestamp	2026-08-25 23:16:46 EDT (UTC-0400)
Permitted tools	Official-source web verification and transparent local checking as recorded for the original run
Actual tools used	Regeneration used local PDF extraction, PDF generation, rendering/visual QA, and SHA-256 hashing; no evaluator was re-run
Preflight corrections	0
Evaluator	LOCAL REIMPLEMENTATION - NOT OFFICIAL EVALUATOR
Result	2/2 instruction-level constraints passed; 1/1 prompt-level strict pass (local result)
Evidence status	NOT INDEPENDENTLY VERIFIED

Official Benchmark Provenance

Google Research IFEval | item key 136

Controlling sources

SOURCE	LOCATION
Official repository	https://github.com/google-research/google-research/tree/master/instruction_following_eval
Official dataset/task source	https://raw.githubusercontent.com/google-research/google-research/master/instruction_following_eval/data/input_data.jsonl (rendered mirror: https://github.com/google-research/google-research/blob/master/instruction_following_eval/data/input_data.jsonl)
Official evaluator/scoring source	https://github.com/google-research/google-research/blob/master/instruction_following_eval/instructions.py
Official paper/specification	https://arxiv.org/abs/2311.07911

Verification result

MATCH. The prompt and response are preserved from the original record. The original record states that item 136, its exact prompt, and both encoded constraints matched the official repository data.

EXACT BENCHMARK PROMPT

A nucleus is a cluster of protons and neutrons. Elaborate on this. Write exactly 9 very short bullet points. Limit the number of words you use (less than 100 words). An example:

- * A nucleus is a cluster of protons and neutrons
- * A proton is

Please follow the format of the example above.

Final Submitted Benchmark Response

Google Research IFEval | item key 136

- * A nucleus contains protons and neutrons.
- * Protons have positive electric charge.
- * Neutrons have no electric charge.
- * Together, they form an atomic nucleus.
- * The strong force binds them together.
- * Protons repel one another electrically.
- * Neutrons help stabilize the nucleus.
- * Nuclear size depends on nucleon count.
- * Nuclear reactions can release great energy.

Evaluation and Audit Trail

Evaluator status: LOCAL REIMPLEMENTATION - NOT OFFICIAL EVALUATOR. No executable copy of the official IFEval evaluator was available or executed for the original run or this regeneration.

Constraint / scoring results

REQUIREMENT	OFFICIAL STANDARD	OBSERVED	RESULT
detectable_format:number_bullet_lists	Exactly 9 Markdown bullets	9 lines begin with "*" "	PASS
length_constraints:number_words	Fewer than 100 words	50 lexical tokens	PASS
Instruction-level score		2/2 constraints passed	LOCAL PASS
Prompt-level strict score		Both constraints passed	PASS
Final recorded score		1/1 prompt-level strict pass	LOCAL RESULT

Evaluation and Audit Trail

Google Research IFEval | item key 136

Manual / secondary check

SECONDARY CHECK

Exactly 9 lines begin with "* "; lexical word count was 50 under the strict threshold of 100; no additional scored prose.

Defects, ambiguities, and limitations

Official evaluator was not executed. Official-versus-local discrepancy is not measurable. The item measures formatting and length constraints, not factual accuracy or general model performance. The requested Luna Max route was not independently verifiable from runtime metadata.

Evidence status

NOT INDEPENDENTLY VERIFIED

Evidence consists of the original benchmark record, the preserved prompt and response, the stated local check, the regenerated PDF, and the bundle manifest. No independent reviewer or official evaluator verified the result.

Record integrity

Benchmark source and original record identified. Final response preserved without retrospective correction. Evaluator category preserved as local reimplementations. Preflight corrections disclosed as 0. No failed completed submission was hidden, and no post-score changes are represented as part of the original run. Source record SHA-256: 05f0e932b147b808e6d3787e7b7ed5da42cb18ae2f3ed68e06e9c7e4b908f46c.

EVALUATOR CLASSIFICATION

LOCAL REIMPLEMENTATION — NOT OFFICIAL EVALUATOR
