

# Grounded DI OS Benchmark Record

Prompt 40 of the Grounded DI cross-domain benchmark series - official Google Research IFEval item key 3502

INTERNAL ONE-SHOT RECORD - FASTPATH 5.6 / LUNA MAX - OFFICIAL EVALUATOR PASS

## 1. Document identity and condition

|                           |                                                                                                                            |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------|
| Primary document          | Grounded DI OS Benchmark Record                                                                                            |
| Benchmark-series position | Cross-domain Prompt 40                                                                                                     |
| Requested condition       | Grounded DI OS / FastPath 5.6 / Luna Max / Protocol A                                                                      |

| Benchmark phase           | Composite interaction test - previously covered checker families                                                           |
| Labels applied            | INTERNAL ONE-SHOT RECORD; FASTPATH 5.6 / LUNA MAX; OFFICIAL EVALUATOR PASS; LOCAL CHECK PASS                               |
| Labels not applied        | certified; independently verified; universal; representative; official leaderboard score; proof of hidden backend identity |

## 2. Purpose and scope

This record documents one observed composite execution of official Google Research IFEval item key 3502 under the requested FastPath 5.6 / Luna Max / Protocol A condition. The item combines a Finnish response-language control with a title-format control and is evaluated against one locked response.

The scored task asks for a third-grade explanation of what happens when a person smells a flower. Manual review considers whether the Finnish explanation is understandable, scientifically sound at a child-facing level, and free of audit material. Those content and language-purity checks remain distinct from the official IFEval score.

The operator-supplied GDRCP v1.1.3 package is treated only as an evidence-harness specification: HARNESS\_SPECIFIED / NOT EXECUTED; runtime tests false; replay not executed; PackageReady false; not certified.

## 3. Official benchmark URLs

Series architecture: <https://github.com/Grounded-DI/Benchmarks-Cross-Domain>  
Audit reference: <https://github.com/Grounded-DI/briefwise-di-performance-on-harvey-lab-benchmark-audit>

## 4. Exact official item (key 3502)

The exact official JSONL line was frozen before response generation. Dataset blob: cbe52f6eecf3986fdac745b4acba4da1408eb146. instructions.py blob: 0007359bd37c7b9c1d9557f8937cb6586d2788a7. Raw-line SHA-256: 916182d32ca5d436b547b1d26b54f8ed865f21828251b119dcddfacc609acd4f1.

```
{
  "key": 3502,
  "prompt": "Explain what happens when you sniff a flower to 3rd grade students. Please answer in Finnish, no other language is allowed throughout your answer. Make sure your response contains a title wrapped in double angular brackets, i.e. <<title>>.",
  "instruction_id_list": [
    {
      "language": "response_language",
      "detectable_format": "title"
    },
    {
      "language": "fi",
      {}
    }
  ]
}
```

5. Exact benchmark prompt (scored task only)

The following exact prompt is the only scored task. Record material is outside the scored-response boundary.

Explain what happens when you sniff a flower to 3rd grade students. Please answer in Finnish, no other language is allowed throughout your answer. Make sure your response contains a title wrapped in double angular brackets, i.e. <<title>>.

6. Observed runtime identity

|                          |                                                                                                 |
|--------------------------|-------------------------------------------------------------------------------------------------|
| Requested condition      | Grounded DI OS / FastPath 5.6 / Luna Max / Protocol A                                           |
| Exposed runtime identity | Codex agent environment; precise backend build or model snapshot not exposed                    |
| Route verification       | ROUTE VERIFICATION NOT EXPOSED - requested condition is not independent proof of a hidden route |
| Runtime-control boundary | HARNESS_SPECIFIED / NOT EXECUTED; no runtime-certification claim                                |

7. Timestamp and timezone

|                              |                                                               |
|------------------------------|---------------------------------------------------------------|
| Official source freeze       | 2026-09-02 UTC before response generation                     |
| Initial candidate            | 2026-09-02 UTC before private preflight                       |
| Response lock                | 2026-09-02 UTC after preflight and before official evaluation |
| Official evaluation recorded | 2026-09-02 UTC after response lock                            |
| Document generation          | After evaluator result was known                              |
| Timezone basis               | UTC                                                           |

8. Tool and web-search status

Official Google Research data and checker source were retrieved and matched to the listed freeze identities before response generation. No web search was used for the scored answer. No current-fact research, proprietary material, credential, external service, or repository modification was used.

Official evaluator code executed against the locked response using the preserved Google Research source. The locked response file was not changed after evaluation began.

9. Draft and preflight status

|                               |                                                                                            |
|-------------------------------|--------------------------------------------------------------------------------------------|
| INITIAL DRAFT STATUS          | PASS                                                                                       |
| PRIVATE PREFLIGHT CORRECTIONS | 0                                                                                          |
| Correction                    | None. The complete candidate already satisfied the Finnish-language and title constraints. |
| LOCK STATUS                   | LOCKED BEFORE OFFICIAL EVALUATION                                                          |
| FINAL SUBMISSION STATUS       | PASS                                                                                       |

One complete candidate was generated. Private preflight found no substantive defect, so no correction was made. No retry, selection among multiple finals, or post-lock rewrite occurred.

10. Final submitted benchmark response

LOCKED SCORED RESPONSE - answer content only. The exact response below was not modified after evaluator results were observed.

<<Kukan tuoksun matka>>  
  
Kun nuuhkaiset kukkaa, sen tuoksun pienet molekyylit kulkeutuvat ilman mukana nenään. Nenän hajureseptorit tunnistavat nämä molekyylit ja lähettävät viestin aivoihin. Aivot tulkitsevat viestin ja kertovat, miltä kukka tuoksuu. Siksi voit huomata kukassa makean, raikkaan tai voimakkaan tuoksun. Nuuhkaise kasveja vain varovasti, koska kaikkia kasveja ei pidä koskettaa tai haistaa.

Locked file: 417 bytes; 3 visible lines; terminal newline present. SHA-256: 80b579834be6580c5783f609972d2bbf0b9af9ae39f01a25ac757e13d011a2be.

11. Official evaluator result

Official Google Research source code was executed against the locked response. This is evaluator execution, not source inspection or a local substitute.

|                                  |                         |
|----------------------------------|-------------------------|
| Direct ResponseLanguageChecker   | True                    |
| Direct TitleChecker              | True                    |
| follow_instruction_list (strict) | [True, True]            |
| follow_all_instructions (strict) | True                    |
| follow_instruction_list (loose)  | [True, True]            |
| follow_all_instructions (loose)  | True                    |
| Official evaluator label         | OFFICIAL EVALUATOR PASS |

ResponseLanguageChecker compares langdetect.detect(value) with the requested language code and returns True on its LangDetectException path. TitleChecker accepts a non-empty double-angular-bracket match. Neither evaluator establishes that every token is Finnish, that the explanation is age-appropriate, or that the science is complete.

12. Manual / local constraint check

LOCAL REIMPLEMENTATION - NOT OFFICIAL EVALUATOR. The transparent local check agrees with the official result.

|                                     |                                                                   |
|-------------------------------------|-------------------------------------------------------------------|

| Leading non-whitespace bytes        | 0                                                                 |
| Trailing non-whitespace bytes       | 1                                                                 |
| Local language detector             | fi                                                                |
| Language-detector exception         | None                                                              |
| Official-equivalent language result | PASS                                                              |
| Title match count                   | 1                                                                 |
| Title match list                    | <<Kukan tuoksun matka>>                                           |
| Non-empty title match count         | 1                                                                 |
| Official-equivalent title result    | PASS                                                              |
| Exactly one usable title            | PASS                                                              |
| Meaningful student explanation      | PASS                                                              |
| Simple science language             | PASS                                                              |
| Audit material in scored block      | Absent                                                            |

Manual task checks - separate from official score

|                                            |      |
|--------------------------------------------|------|
| Finnish-only answer presentation           | PASS |
| One non-empty double-angular-bracket title | PASS |
| Third-grade understandable explanation     | PASS |
| Basic smell-and-brain explanation          | PASS |
| No invented authority or current fact      | PASS |
| No audit material in scored block          | PASS |

13. Scores

|                               |                                                         |
|-------------------------------|---------------------------------------------------------|
| Instruction-level score       | 2 / 2 encoded constraints passed                        |
| Prompt-level strict score     | PASS                                                    |
| Prompt-level loose score      | PASS                                                    |
| Final score                   | 1 / 1 prompt-level strict pass                          |
| Official vs local discrepancy | None                                                    |
| Manual checks                 | Reported separately; not added to official IFEval score |

14. Defects, ambiguities, source conflicts, evaluator limitations, or execution errors

No source conflict or official evaluator execution error was observed. The initial candidate passed private preflight with zero substantive corrections. No content was changed after lock.

The official ResponseLanguageChecker is a language-detection predicate rather than a proof that every token is Finnish. Its LangDetectException path returns True. The official TitleChecker recognizes any non-empty match of the double-angular-bracket pattern and does not assess title quality or placement.

The local manual checks require one usable title, a comprehensible Finnish explanation for young students, basic scientific coherence, and no audit material. These checks are not additional official IFEval criteria and are not linguistic, educational, or scientific certification.

ROUTE VERIFICATION NOT EXPOSED remains a material limitation. The requested Luna Max condition is recorded as supplied and is not proof of a hidden backend build or route.

15. Evidence status

|                             |                                                                                                               |
|-----------------------------|---------------------------------------------------------------------------------------------------------------|
| Official item evidence      | FROZEN - exact raw JSONL line preserved; raw-line SHA-256 recorded                                            |
| Official checker evidence   | FROZEN - instructions.py blob identity recorded                                                               |
| Scored response evidence    | LOCKED - SHA-256 recorded before official evaluation                                                          |
| Official evaluator evidence | EXECUTED - direct, strict, and loose results recorded                                                         |
| Local-check evidence        | EXECUTED - transparent mirror and manual checks recorded                                                      |
| Runtime-control package     | HARNESS_SPECIFIED / NOT EXECUTED; runtime tests false; replay not executed; PackageReady false; not certified |
| PDF visual QA               | PASS - final rendered pages inspected; no clipping, overlap, missing glyphs, or footer collision observed     |

16. Record-integrity statement

This is an INTERNAL ONE-SHOT RECORD for the requested FASTPATH 5.6 / LUNA MAX condition. The frozen item, initial candidate, zero disclosed preflight corrections, locked response, evaluator outputs, local checks, and PDF were recorded in order. Locked response SHA-256: 80b579834be6580c5783f609972d2bbf0b9af9ae39f01a25ac757e13d011a2be. Official item-line SHA-256: 916182d32ca5d436b547b1d26b54f8ed865f21828251b119dcddf609acd4f1. The record preserves the observed result and does not claim certification, independent verification, leaderboard standing, guaranteed determinism, or proof of hidden backend identity.
