

Grounded DI OS Benchmark Record

Prompt 49 of the Grounded DI cross-domain benchmark series - official Google Research IFEval item key 1040

INTERNAL ONE-SHOT RECORD - FASTPATH 5.6 / TERRA EXTRA HIGH - LOCAL CHECK PASS

1. Document identity and condition

Primary document	Grounded DI OS Benchmark Record
Benchmark-series position	Cross-domain Prompt 49
Requested condition	Grounded DI OS / FastPath 5.6 / Terra Extra High / Protocol A
Run controls	Tier 18; DIP 0-166; Benchmark Mode
Benchmark identifier	Google Research IFEval item key 1040
Official encoded controls	change_case:capital_word_frequency twice; startend:quotation
Labels applied	INTERNAL ONE-SHOT RECORD; LOCAL CHECK PASS; LOCAL REIMPLEMENTATION - NOT OFFICIAL EVALUATOR
Labels not applied	OFFICIAL EVALUATOR PASS; certified; independently verified; universal; representative; official leaderboard score; proof of hidden backend identity

2. Purpose and scope

This record documents one locked response to official Google Research IFEval item 1040 under the requested FastPath 5.6 / Terra Extra High / Protocol A condition. The item requires an all-caps-word count that is both at least one and fewer than ten, plus wrapping the entire response in double quotation marks.

The three machine constraints define the IFEval result. Resume utility, fictional identity, conventional heading presentation, and absence of audit text are separate manual checks. The route is a requested condition label only and is not proof of a particular underlying model identity.

3. Official benchmark URLs and source freeze

Series repository	https://github.com/Grounded-DI/Benchmarks-Cross-Domain
Official evaluator tree	https://github.com/google-research/google-research/tree/master/instruction_following_eval
Official input data	https://raw.githubusercontent.com/google-research/google-research/master/instruction_following_eval/data/input_data.jsonl
Official checker	https://github.com/google-research/google-research/blob/master/instruction_following_eval/instructions.py
IFEval paper	https://arxiv.org/abs/2311.07911
Source freeze	2026-09-03 18:24:51 UTC; Google Research commit 932d4685e23f671b9e8c2abc72dd228ba5ff9252
Frozen source objects	input_data.jsonl blob cbe52f6eecf3986fdac745b4acba4da1408eb146; instructions.py blob 0007359bd37c7b9c1d9557f8937cb6586d2788a7

4. Exact official item (key 1040)

The official dataset entry was matched by item key, prompt text, instruction IDs, and parameters before response lock. The fixed JSON representation below has SHA-256 f93f39788dccc84f2c1bfde93da5babceeb26e196fb52d8e5fce40ed4a6761fe.

```
{
  "key": 1040,
  "prompt": "Write me a resume for Matthias Algiers. Use words with all capital letters to highlight key abilities, but make sure that words with all capital letters appear less than 10 times. Wrap the entire response with double quotation marks.",
  "instruction_id_list": [
    "change_case:capital_word_frequency",
    "change_case:capital_word_frequency",
    "startend:quotation"
  ],
  "kwargs": [
    {
      "capital_relation": "less than",
      "capital_frequency": 10
    },
    {
      "capital_relation": "at least",
      "capital_frequency": 1
    }
  ]
}
```

5. Exact benchmark prompt - scored task only

The following official prompt is the only task being scored. This record material is outside the scored-response boundary.

Write me a resume for Matthias Algiers. Use words with all capital letters to highlight key abilities, but make sure that words with all capital letters appear less than 10 times. Wrap the entire response with double quotation marks.

6. Route, timestamp, and tool status

Requested condition	Grounded DI OS / FastPath 5.6 / Terra Extra High / Protocol A
Response lock and document generation	2026-09-03 18:24:51 UTC
Timezone basis	UTC
Official-source retrieval	GitHub connector retrieved and matched the official dataset and checker source
Web search for scored response	Not used
Official evaluator execution	Not executed - instruction_following_eval package and NLTK dependency are unavailable in this workspace

7. Draft and preflight status

Initial-draft status	PASS
Private preflight corrections	0
Correction	None. The complete candidate satisfied all three encoded constraints before lock.

Lock status	LOCKED BEFORE LOCAL CHECK
Final submission status	PASS

One complete candidate was generated. Private preflight found no substantive defect. No retry, selection among multiple final responses, or post-lock rewrite occurred.

8. Final submitted benchmark response

LOCKED SCORED RESPONSE - answer content only. The exact response below was not modified after local checks were run.

```
"Matthias Algiers
Operations Coordinator

PROFILE
Organized professional with experience guiding schedules vendors and client updates.

EXPERIENCE
Coordinated projects tracked deadlines and prepared clear status reports.

STRENGTHS
Planning communication and dependable follow through."
```

Locked file: 287 bytes; 11 physical lines with 8 non-empty lines; terminal newline present. SHA-256:
226dd9d1b6108bf15f8b698b5541c4378c155d32bb3a317483239ab622dc88e2.

9. Official evaluator result

OFFICIAL EVALUATOR NOT EXECUTED. The official IFEval package was unavailable in this workspace, so no official strict or loose result is claimed. Source text was verified against the recorded Google Research commit.

Official evaluator label	NOT EXECUTED
Official strict score	NOT MEASURABLE
Official loose score	NOT MEASURABLE
Official-versus-local discrepancy	NOT MEASURABLE

10. Transparent local-equivalent result

LOCAL REIMPLEMENTATION - NOT OFFICIAL EVALUATOR. The source checker tokenizes with NLTK then applies isupper(). NLTK is unavailable here, so the response-only equivalent uses simple alphabetic tokens. The deliberately simple locked response has no contraction, hyphen, or punctuation ambiguity that could affect the three all-caps headings.

Capital-word count	PASS - 3 all-caps words: PROFILE, EXPERIENCE, STRENGTHS
Less-than-ten constraint	PASS - 3 < 10
At-least-one constraint	PASS - 3 >= 1
QuotationChecker equivalent	PASS - whitespace-stripped response begins and ends with a straight double quote
Instruction-level local score	3 / 3 encoded constraints passed
Prompt-level strict local score	PASS
Final local score	1 / 1 prompt-level strict pass

Internal check status	INTERNAL RESPONSE-ONLY BLIND CHECK
Independent verification	NOT INDEPENDENTLY VERIFIED

The response-only local checker received the locked response and fixed parameters. It did not receive an official evaluator result. This internal blinding condition does not make the result independently verified.

11. Manual task checks - separate from official score

Fictional resume presents a name and role	PASS
Three visibly all-caps ability headings	PASS
Resume has substantive professional content	PASS
Scored response contains no audit material	PASS

These checks are disclosed for task completeness and are not added to the three encoded IFEval constraints.

12. Defects, ambiguities, limitations, and integrity

No source conflict was observed: item key 1040, the quoted prompt, instruction IDs, and parameters matched the official dataset. The two capital-word constraints are independent comparisons over the same count. The official evaluator and its NLTK tokenizer were unavailable here; this record therefore reports a transparent local-equivalent result only and does not claim an official IFEval score.

The response uses exactly three plainly separated all-caps heading tokens to make the tokenization outcome unambiguous. The record does not claim independent verification, universal capability, factual certification, or route identity verification.

13. Evidence status and record integrity

Evidence status	NOT INDEPENDENTLY VERIFIED
Record class	INTERNAL ONE-SHOT RECORD
Official source control	Verified against Google Research source commit and frozen object identifiers
Scored-response preservation	Exact locked response reproduced in this record
Hashable artifacts	Locked response and fixed item JSON SHA-256 values shown here; PDF and package SHA-256 sidecars accompany publication
Publication status	Eligible for direct repository publication only after the local strict pass

Integrity statement: This PDF preserves the source references, locked response, transparent local checks, manual checks, score boundary, and limitations as observed. It does not upgrade a local result into an official or independently verified score. No unrelated sample artifact is included.

14. Final disposition

Encoded constraints	3 / 3 local-equivalent pass
Prompt-level strict result	1 / 1 local strict pass
Official evaluator	NOT EXECUTED
Evidence	NOT INDEPENDENTLY VERIFIED
Publication decision	Eligible for direct repository publication under the carried-forward publish-on-pass authorization
