Exact official task

Write a story for kids about how a person learns to ride a bike. Do not include 'can' and 'ride' in your response.

Locked response

Maya watched the red bike lean against the fence.

On the first afternoon, she held the handlebars while her dad walked beside her. She wobbled, laughed, and tried again.

Each day, Maya pushed off farther. Soon the wheels hummed down the path, and she balanced by herself.

At sunset, she rang the bell and smiled. Practice had turned a scary beginning into a new adventure.
