Claim boundary

This record documents a local check of the official encoded requirement. It is not an official IFEval evaluator run or an independent verification.

Exact official task

Write a summary of the following text in a funny way: "The 2018 Nobel Prize in Chemistry has been awarded to Frances Arnold, George P. Smith and Gregory P. Winter for their work on directed evolution. Arnold was awarded half of the prize for her work on the directed evolution of enzymes, while Smith and Winter shared the other half for their work on the directed evolution of antibodies."

Do not include "enzymes" and "antibodies" in your response.

Locked response

Three scientists won the 2018 Nobel Prize in Chemistry for turning evolution into a tiny laboratory comedy show: Frances Arnold improved useful molecules through repeated rounds, while George P. Smith and Gregory P. Winter used viral displays to find promising protein candidates. Nature supplied the trial and error; the laureates supplied the paperwork and the trophy.

Manual task checks

Task response	Summarizes the source passage in a concise and lightly comic way.
Factual framing	Preserves the Nobel Prize, named researchers, directed-evolution work, and division of contributions.
Response boundary	The scored block contains only the requested answer.

Preflight

0 corrections. The response was checked before finalization and then locked.

Local keyword evidence

Encoded constraint	Result	Evidence
enzymes absent	PASS	Zero case-insensitive whole-word matches.
antibodies absent	PASS	Zero case-insensitive whole-word matches.
