

Grounded DI OS Benchmark Record

Prompt 51 | Google Research IFEval item 2230 | FastPath 5.6 / Terra Extra High

Check	Result	Basis
Record status	INTERNAL ONE-SHOT RECORD	One locked response preserved exactly.
Evaluator status	NOT EXECUTED	Official IFEval package unavailable in this workspace.
Evidence status	NOT INDEPENDENTLY VERIFIED	No independent reviewer participated.
Timestamp	2026-09-03 19:03:51 UTC	UTC

Purpose and source control

This record documents one response to the exact official Google Research IFEval item. It separates the official encoded constraints from manual task checks. The recorded route is FastPath 5.6 / Terra Extra High and is not a claim about an unexposed underlying runtime identity.

Official benchmark sources

Check	Result	Basis
Repository	VERIFIED	https://github.com/google-research/google-research/tree/master/instruction_following_eval
Input dataset	VERIFIED	https://raw.githubusercontent.com/google-research/google-research/master/instruction_following_eval/data/input_data.jsonl
Checker source	VERIFIED	https://github.com/google-research/google-research/blob/master/instruction_following_eval/instructions.py
IFEval paper	VERIFIED	https://arxiv.org/abs/2311.07911
Pinned source commit	932d4685e23f671b9e8c2abc72dd228ba5ff9252	Dataset blob cbe52f6eecf3986fdac745b4acba4da1408eb146; checker blob 0007359bd37c7b9c1d9557f8937cb6586d2788a7

Exact benchmark prompt

Make this text weird: "The new version of the app will be available in the App Store soon. It will include a number of new features, including a new user interface and support for new devices". Don't use any commas. Highlight at least 2 sections in your answer with markdown, i.e. `*highlighted section*`.

Official encoded constraints

Check	Result	Basis
punctuation:no_comma	No comma	CommaChecker returns not re.search(r'\,', response).
detectable_format:number_highlighted_sections	At least 2	HighlightSectionChecker counts non-empty <code>*single-star*</code> spans.

Submitted benchmark response - preserved exactly

The new app version will appear in the App Store soon wearing `*a tiny chrome cape*`. It brings `*moonlit menus*` and several fresh features. New devices will receive a cheerful beep from its new interface.

The scored response contains only the requested rewrite. No title, citations, score, or audit material appears in the scored block.

Evaluator and local-equivalent result

LOCAL REIMPLEMENTATION - NOT OFFICIAL EVALUATOR. The official evaluator package could not be imported in this workspace. The local checks mirror the published CommaChecker and HighlightSectionChecker behavior.

Official-versus-local discrepancy: NOT MEASURABLE.

Check	Result	Basis
Comma check	PASS	0 comma characters.
Highlight check	PASS	2 non-empty single-star spans; expected at least 2.
Instruction-level score	2 / 2	Both official encoded constraints passed locally.
Prompt-level strict score	PASS	All encoded constraints passed locally.
Final score	1 / 1	Local prompt-level strict pass only.

Manual task checks - outside official scoring

Check	Result	Basis
Weird rewrite	PASS	The app-update message is rewritten with surreal details.
Source themes retained	PASS	App Store timing, features, interface, and new-device support remain.
Response-only boundary	PASS	No benchmark or audit text appears in the submitted response.

Preflight, blinding, and limitations

Check	Result	Basis
Private preflight corrections	0	The locked response passed the first preflight.
Blinding status	INTERNAL RESPONSE-ONLY BLIND CHECK	Only final response plus fixed parameters went to the local checker.
Independent verification	NOT INDEPENDENTLY VERIFIED	No independent reviewer or external evaluator participated.
Official evaluator	NOT EXECUTED	No official evaluator pass is claimed.

Record-integrity statement

The response was locked before local checking and is reproduced here without alteration. No source conflict was found for item key 2230 or its encoded parameters. The PDF SHA-256 is recorded in the accompanying sidecar. The ZIP package contains this unmodified PDF and its internal PDF checksum. This is an internal one-shot record, not an official score, external certification, independent verification, or a representative performance estimate.
