Claim boundary

This record documents a local check of the official encoded requirement. It is not an official IFEval evaluator run or an independent verification.

Exact official task

Can you give me a zany, bullet point TLDR of this article: https://en.wikipedia.org/wiki/Dota_2

Make it zany, but do not include the keywords 'icefrog', 'blizzard', 'lawsuit' in the response.

Locked response

- Dota 2 is a five-on-five strategy game where heroes defend ancient bases while hunting for an opening.
- Three lanes become pressure cookers as players gather gold, gain power, and turn clever teamwork into chaos.
- Every hero brings a different toolkit, so a tiny timing error can become a giant swing.
- Towers fall, spells explode, and the map turns into a tactical circus with serious consequences.
- The goal is wonderfully direct: break the enemy Ancient before your own team gets sent home.
